BRED to BUCK

Female Sale

WELCOME

The namesake of this sale "Bred to Buck" pretty much describes this offering. We have spent the past 30 years breeding bucking bulls and we strive everyday to make them better. In all our years of producing bucking bulls the key element we have discovered is the females. To consistently produce buckers they must be out of proven cow families.

We are currently producing over 200 head of females annually so we must sell that many each year to maintain our cowherd at a manageable number. In years of culling out the cow families that don't consistently produce, we have an elite set of females.

This offering is rich in proven genetics. They have calves at their side and are exposed back to the best sires we own. There are many females in this sale that are simply too young to have built a name for themselves, so we will let you reap the benefits of their progeny.

We are proud of the past success our customers have had with their purchases in this sale and I am sure there will be many more from this offering.

The opportunities in the Bucking Bull business just continue to escalate. There is plenty of money to be won and the elite genetics will always prevail.

D&H Cattle Company has been fortunate to have success but it wouldn't all happen without the passion for this business that's shared among the family and our great employees. Special thanks to Jackie, Rooster, and Dave, we couldn't do it without you guys, Thank You!!

We are excited about this offering of females. Take your time study the catalog and feel free to contact us with any questions.

Thank you for your interest,
D&H Cattle Co.

PAGE BREEDING

- Pasture exposed to 08 Margy Time
- What a great female to lead off an incredible set of females. There were only three of these born. We don't like selling this kind but we feel obligated to offer our very best in this sale each year.
- She is sired by Hotel California.
- Her dam is 590 which is also the dam to Mossy Oak Mudslinger.
- There is not a large supply of Hotel California daughters and they have proven to be great producers.
- BRED COW
